SANITARY BOARD

June 2, 2022

10:00 A.M.

THE MEETING OF THE SANITARY BOARD FOR THE CITY OF CHARLESTOWN WAS HELD ON THURSDAY, JUNE 2, 2022 AT 10:00 A.M. AT CITY HALL WITH MAYOR TREVA HODGES PRESIDING.

Board members present were Ryan Hodskins and Nathan Grimes. Also present were Clerk Treasurer Donna Coomer and Attorney Beau Zoeller.

Pledge of Allegiance

Agenda

Treva Hodges added an item as new business item a. Resolution 2022-R-06 and corrected old business Resolution 2022-R-05. Treva Hodges entertained a motion to approve the amended agenda. Motion made by Ryan Hodskins, second by Nathan Grimes. Passed 3-0.

Standing Business

Treva Hodges entertained a motion to approve the minutes from May 19 and May 19 joint executive session, the payroll voucher from May 15 to May 28, and the claims. Motion made by Nathan Grimes, second by Ryan Hodskins. Passed 3-0.

Public Comment-none

Resolution 2022-R-05 (Clarifying the Sanitary Sewer Adjustment Policy)

Attorney Beau Zoeller has drafted an adjustment policy to address water users that do not discharge all their consumption into the sewer system. Clerk Treasurer Donna Coomer and her staff reviewed the policy. It currently addresses one user but could likely address more in the future with the additions in River Ridge. It would allow users to add a meter at their own expense and would be read to allow an adjustment of that amount of usage.

Treva Hodges entertained a motion to approve Resolution 2022-R-05. Motion made by Ryan Hodskins, second by Nathan Grimes. Passed 3-0.

Resolution 2022-R-06 (Approving IDEM Agreed Order)

This resolution approves the agreed order that has been negotiated with IDEM. It is similar to the resolution that will be presented to the Council. It also gives the Mayor authorization to execute the final order.

Treva Hodges entertained a motion to approve Resolution 2022-R-06. Motion made by Ryan Hodskins, second by Nathan Grimes. Passed 3-0.

Engineering Report

Lori Wyatt with JTL presented a project status report. The plant design is going well and should be ready to bid in January. JTL is going to meet with the mayor and operator to discuss staffing recommendations. The antidegradation study is nearly ready to go to IDEM. The flow monitoring is finished and they are awaiting final results.

JTL is hoping to investigate the pump station at Highway 62 and Charlestown Landing Road to determine if the city owns the station, or if it is a private station. Attorney Beau Zoeller will reach out to help with the research.

Operator Update

Operator Tim Crawford presented a summary of May operations. All parameters were within limits except phosphorus. He is researching why it exceeded allowance.

Mr. Crawford also presented a Work Order from JTL for the implementation and development of a GIS program. This would allow mapping of assets and the development and implementation of a preventative maintenance program. JTL would do field work for 3 months and then be fully completed by the end of the year. After discussion, the board would rather table this proposal until they can determine the financial impact, considering other pending obligations and revenues. Mayor Hodges would also like JTL to look at possible grant opportunities to help with the cost, or if this could be presented as part of the SRF application. The SRF may be possible because some of the conditions of the agreed order are the development of asset management and preventative maintenance plans. They also want to look at the capacity fees to determine if they could be used to pay for some of this. Attorney Beau Zoeller is going to review the ordinance to determine if that would be a possibility. It may also be possible to coordinate data with other vendors that also have digital GIS information that could be shared.

Treva Hodges entertained a motion to table the GIS Work Order 2022-03. Motion made by Ryan Hodskins, second by Nathan Grimes. Passed 3-0.

A new staff member began yesterday and there are other offers pending for an additional laborer, but no commitments. As the staff grows, Mr. Crawford would like to seek bids for additional trucks, one possibly with a winch/boom to allow the employees to pull pumps and make repairs without having to contract the work.

Adjournment

Treva Hodges entertained a motion to adjourn. Motion made by Ryan Hodskins, second by Nathan Grimes. Passed 3-0.

Additionally, **HWC** shall not be responsible for the use of the Documents by **CLIENT**, or consultants retained by the **CLIENT**, for any purposes other than in conjunction with the Project.

HWC's opinions of probable construction costs provided under this Agreement are to be made on the basis of **HWC's** experience and qualifications and represent **HWC's** best judgment as an experienced and qualified professional within the industry. However, since **HWC** has no control over the cost of labor (including but not limited to wage scales for public works projects), materials (or changes in materials requested by **CLIENT**), equipment or services furnished by others, changes in applicable laws (including, but not limited to, building codes, flood plain designation, etc.) or over the **CONTRACTOR's** methods of determining prices or over competitive bidding or market conditions, **HWC** cannot and does not guarantee that proposals, bids or actual construction cost will not vary from opinions of probable construction costs prepared by **HWC**.

5. Status of Claims

HWC shall be responsible for keeping the **CLIENT** currently advised as to the status of any known claims made for damages against **HWC** resulting from services performed under this

Agreement. **HWC** shall send notice of claims related to work under this Agreement to the **CLIENT**.

Services may be terminated by the **CLIENT** and **HWC** by thirty (30) days' notice in the event of substantial failure to perform in accordance with the terms hereof by the other party through no fault of the terminating party so long as such nonperformance has not been caused by delays outside of the control of **HWC**. If so abandoned, **HWC** shall deliver to the **CLIENT** copies of all data, reports, drawings, specifications and estimates completed or partially completed along with a summary of the progress of the work completed within twenty (20) days of the abandonment. In the event of the failure by **HWC** to make such delivery upon demand, then and in that event **HWC** shall pay to the **CLIENT** any damages sustained by reason thereof. The earned value of the work performed shall be based upon an estimate of the portions of the total services as have been rendered by **HWC** to the date of the abandonment for all services to be paid for on a lump sum basis. **HWC** shall be compensated for services properly rendered prior to the effective date of abandonment on all services to be paid on a cost basis or a cost plus fixed fee basis. APPENDIX “A”

SERVICES BY HWC

General Description of Services:

CLIENT owns and operates the Spring Street Lift Station, which is located west/northwest of the intersection of Indiana Highways 3 and 62. The lift station has historically had issues with wet weather flows, and a non-compliant surge basin is located adjacent to the station which collects sanitary flows exceeding the capacity of the lift station. **CLIENT** is coordinating with the Indiana Department of Environmental Management on a compliance plan and Agreed Order to improve the lift station.

Concurrently, two large developments, Shadow Brook Farms and Shadow Lake, are being planned generally south of the Spring Street Lift Station that will require sanitary service either via the Spring Street Lift Station or other new infrastructure. The developments will consist of a mix of residential, mixed-use, commercial, light industrial and retail generally located between Indiana 62 and Indiana 403, southwest of Indiana 3.

Since the Spring Street Lift Station requires capital improvements, and the need for additional service for new developments exist, **CLIENT** desires an evaluation of the current and future flows required to be conveyed by the Spring Street Lift Station or potentially by a new regional lift station, which could be constructed southwest of the proposed developments and collect flows from the existing Spring Street Station (via new gravity sewer) and the new developments.

In order to evaluate the feasibility of this regional lift station plan, **CLIENT** has requested that **HWC** complete the following scope of services.

Scope of Services

HWC will evaluate the feasibility of replacing the Spring Street Lift Station (with consideration of the surge basin) with a new regional lift station and associated gravity sewers and force mains serving the Spring Street service area as well as new developments including, but not limited to, Shadow Brook Farms and Shadow Lake. To that end, **HWC** will complete the following:

1. Coordinate with developers on plans and land uses in the service area of the proposed lift station to determine potential sanitary flows;
2. Review flow data for the Spring Street Lift Station to be provided by **CLIENT** to determine the average and peak wet weather flow conveyed to the existing station;
3. Based on flow data for the Spring Street Lift Station, and flow projections for potential developments to be served by a new regional lift station, develop gravity sewer routes and sizing for flow conveyance to the new lift station;
4. Determine, based on flow data and flow projections, the capacity requirements of the new lift station and evaluate force main alternatives considering the rate of development and incremental increase of flows to the new facility;
5. Provide cost estimates for new sanitary infrastructure for a new regional lift station concept to replace the Spring Street Lift Station;
6. Evaluate options for the existing surge basin adjacent to the Spring Street Lift Station;

7. Provide a brief report summarizing the analysis and providing recommendations to **CLIENT** on the feasibility of a new regional lift station.

APPENDIX "B"

2. Assist **HWC** by placing at **HWC's** disposal all available information pertinent to the assignment including previous reports and any other data relative thereto.

4. Give prompt written notice to **HWC** whenever **CLIENT** observes or otherwise becomes aware of any defect in the Project.
5. 7. Obtain necessary easements and right-of-way for construction of the Project, including easement and right-of-way descriptions, property surveys and boundary surveys.
8. Furnish to **HWC**, as requested by **HWC** or as required by the Contract Documents, data prepared by or services of others, including exploration and tests of subsurface conditions at or contiguous to the site, drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the site.

APPENDIX “C”
